   Worked on different projects , in fullstack development .

PROJECTS

DOCTOR APPOINTMENT SYSTEM   *January 2024 – March 2024*
MERN Stack
- Developed a web-based Doctor-Appointment System enabling users to seamlessly reserve and book doctor's appointment for patients, ensuring efficient and hassle-free appointment management.
- Engineered an intuitive interface for easy doctor access and appointment, enhancing user experience and facilitating smooth patient-doctor communication.
- Integrated a chatbot to provide medicine information, answer queries, and recommend the best doctors.

FOODIVERSE –FOOD-WEBSITE   *October 2023 – January 2023*
MERN Stack
- Developed a MERN stack web application featuring a foodstore offering a diverse selection of dishes across various cuisine. Implemented functionality allowing users to order food based on your personal choice and make payment.
- Orchestrated the creation of a user-friendly interface where users can view detailed recipes, and explore culinary options.
